LightSpeed Japan Studio recruitment team

November 2026

Application: Combat Designer

Dear LightSpeed Japan team,

My name is Sabri Mohamadi. I am a Game Designer and Producer based in Tokyo, and from 2023 to 2025 I was **Global Associate Producer on the Little Nightmares franchise** at Bandai Namco Entertainment Europe. I am writing to apply for the Combat Designer position.

I discovered Monster Hunter with Monster Hunter: World and finished it several times. What kept me coming back was reading each monster: learning its patterns, finding the openings, and feeling the fight change as I got better. That is the part of game design I want to work on.

I trained as a programmer and in game design (Master's-level degree, Ynov Campus), and I prototype in **Unity (C#) and Unreal (Blueprints)**. I designed and produced NaJiKi, a horror game that won funding support on a French streamer's show, and I worked as Technical Game Designer on game jam projects. At Bandai Namco, because the company owns the IP, I took part in the game design meetings and decisions on Little Nightmares III and the VR game, and I reviewed every milestone build with the external studios.

I have not been the combat designer on a shipped action game, and I will be honest about that. What I can bring is a programmer's understanding of enemy behaviour and implementation, the habit of writing clear specifications for other disciplines, and playtest-driven iteration. I would be glad to share a small enemy design sample if it helps your review.

English is my working language and French my native language. I understand most spoken Japanese and hold everyday conversations; reading and writing are still behind, and I take classes in Tokyo to close that gap.

I am available now, in Tokyo or Osaka. My portfolio is at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
