English Innovations K.K., Shinjuku

October 2026

Application: Part-time Lecturer, University Foundation Courses

Dear English Innovations team,

My name is Sabri Mohamadi. I am a Visiting Lecturer at Ynov Campus in France, where I teach Producing, Game Design, Level Design and programming fundamentals remotely from Tokyo. I am writing to apply for the part-time Lecturer position for your university foundation courses, in particular **Fundamentals of Programming, Fundamentals of Design** and Digital Literacy.

My students learn programming best on the day their first small project actually runs on screen, and I build my courses around that moment. I would like to bring the same project-based approach to your students.

I teach from first-year Bachelor's to Master's level. I hold a Master's-level degree (RNCP level 7) in Game Programming and Design, and I trained as a programmer (C#, C++, .NET, Unity). I also created a programming basics course on Udemy and the Hika Learn YouTube channel.

Before teaching, I worked in the games industry as Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, and as a consultant who trained client teams on Microsoft 365 tools.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. I am available on weekdays, Monday to Friday, and I would be glad to discuss which courses fit your schedule. My CV and portfolio are at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
