Application: Adjunct Faculty Pool, Undergraduate (Game Design and Production)

Dear Hiring Committee,

My name is Sabri Mohamadi. I am a Visiting Lecturer at Ynov Campus in France, where I teach Producing, Game Design and Level Design. I am writing to join your undergraduate adjunct faculty pool and to propose courses in **game design and game production**.

Every week I teach students in France remotely from Tokyo, and I would very much like to teach here in person.

I teach from first-year Bachelor's to Master's level and hold a Master's-level degree (RNCP level 7) in Game Programming and Design. My teaching draws on industry practice: from 2023 to 2025 I was Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, where I helped ship Little Nightmares III, Little Nightmares VR: Altered Echoes and the mobile port, working with external studios across Europe and with colleagues in Japan. I sat on the accessibility task force, and I coached the project leads of six student game projects at a games incubator.

I could teach an introduction to game design, a game production course built around milestones, scope and external development, or a course on accessibility in games, and I would be glad to share syllabi.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. My portfolio and CV are at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
