October 2026

Application: Part-time Tech Instructor

Dear Tokyo Coding Club team,

My name is Sabri Mohamadi. I am a Game Designer and programmer based in Tokyo, and I teach Game Design, Level Design and programming fundamentals at Ynov Campus as a Visiting Lecturer. I am writing to apply for the part-time Tech Instructor position.

Games are how I teach code. In my classes, a prototype that students can play does more than any slide about loops, and I would love to use Minecraft, Roblox and Scratch the same way with your students.

I trained as a programmer (C#, C++, Unity, Unreal), created a programming basics course on Udemy and the Hika Learn YouTube channel, and trained client teams on Microsoft 365 tools as a consultant. I also worked in the games industry as Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. English is my working language, French my native language, and I understand most spoken Japanese. My portfolio is at **sabri-mohamadi.fr**, and I would be glad to run a trial lesson. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
