Team ASOBI hiring team, Sony Interactive Entertainment, Tokyo — October 2026

Application: Game Designer, Team ASOBI

Dear Team ASOBI,

My name is Sabri Mohamadi. I am a Game Designer and Producer based in Tokyo, and I teach **Game Design and Level Design** at Ynov Campus as a Visiting Lecturer. I am writing to apply for the Game Designer position at Team ASOBI.

Teaching Game Design, I found that explaining why something is fun is often harder than making it, and it has become the part of design I enjoy most. That is one reason Team ASOBI's way of sharing ideas, through sketches, prototypes and a clear reason behind every mechanic, appeals to me.

I trained in game programming and design (Master's-level degree, Ynov Campus), and I prototype my own ideas in Unity and Unreal. I designed and produced **NaJiKi**, a horror game that won funding support on French streamer Maghla's show, designed the puzzles of MyHome?, an escape game in Unreal, and worked as Technical Game Designer on game jam projects.

From 2023 to 2025 I was Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, where I helped ship Little Nightmares III and **Little Nightmares VR: Altered Echoes**. Because Bandai Namco owns the IP, our team had a real voice on design: I took part in the game design meetings and decisions, and gave the studios regular feedback and proposals. I also sat on the accessibility task force, and working on a VR game showed me how much comfort, readability and onboarding shape the fun.

My Japanese is conversational, at around intermediate level, and I take classes in reading and writing; my working language is English. I live in Tokyo, can start right away, and I am happy to take a practical test. My portfolio is at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
