Keywords Studios LQA team, Tokyo

October 2026

Application: French Game Localization Tester (Tokyo)

I am applying to join your pool of French Game Localization Testers in Tokyo. I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan and can start right away.

French is my native language and English my working language. I spent two years as Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, where I worked every day with QA and localization on Little Nightmares III, the VR game and the mobile port. I know how a clear bug report saves time for developers, and how much text, context and consistency matter to players.

I trained as a programmer, I am comfortable with Jira, Confluence and Microsoft Office, and I play a lot, from rhythm games such as osu! and Muse Dash to Monster Hunter: World. I understand most spoken Japanese, which helps when working alongside Japanese teams.

I am available Monday to Friday and can start right away. My CV is at **sabri-mohamadi.fr**.

Kind regards,

Sabri Mohamadi
