Apple Japan recruitment team, Tokyo

October 2026

Application: Creative Co-ordinator / Producer, APAC (role 200683440-6482)

Dear Apple team,

My name is Sabri Mohamadi. I am a Producer based in Tokyo, and from 2023 to 2025 I was **Global Associate Producer on the Little Nightmares franchise** at Bandai Namco Entertainment Europe. I am writing to apply for the Creative Co-ordinator / Producer position for APAC.

I make videos on my own channel, I am Hika, where I write, film and edit everything myself. It taught me how long each step of a piece of content really takes, from the first idea to the final export, and that is what I think about when I build a production plan for other people.

At Bandai Namco I worked on three games in parallel with external studios in different countries: Supermassive Games on **Little Nightmares III**, Iconik on the VR game and Playdigious on the mobile port in the run-up to launch. I turned goals into schedules, tracked deliveries in Jira, Confluence and SharePoint, collected assets for marketing and communications, and reported progress and risks to stakeholders. The games shipped on twelve platforms, including iOS and Android.

The posting asks for creative production experience with illustrators and animators. My experience is in game production rather than in a creative agency, so I will be honest about that difference. What carries over is managing several projects at once with partners across time zones, which I did every day between Europe, the UK and Japan.

French is my native language and English my working language. I understand most spoken Japanese and hold everyday conversations; reading and writing are still behind, and I take classes in Tokyo to close that gap.

I am available now. My portfolio is at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
