Mantra Inc. recruitment team, Tokyo

October 2026

Application: Project Manager / Business Development, Mantra Engine

Dear Mantra team,

My name is Sabri Mohamadi. I am a Producer based in Tokyo, and from 2023 to 2025 I was **Global Associate Producer on the Little Nightmares franchise** at Bandai Namco Entertainment Europe. I am writing to apply for the Project Manager / Business Development position on Mantra Engine.

Localisation was part of my daily work. On Little Nightmares I worked with the localisation team every day, and I saw how much a release depends on the people who coordinate translators, reviewers and deadlines. Helping manga reach readers in other languages is that same work, and I would like to do it with your team.

At Bandai Namco I worked with external studios on three games in parallel: Supermassive Games on **Little Nightmares III**, Iconik on the VR game and Playdigious on the mobile port in the run-up to launch. I kept localisation, QA, marketing and communications aligned, reviewed deliveries and reported to stakeholders. I trained as a programmer and have built Microsoft 365 and Power Automate automations, including **a weekly report that used to take a full day**, so I am comfortable working with tools and automation.

The role asks for B2B business development. My most direct experience is with Hiqub, a collective of independent creators, where I helped as Producer and Business Developer. It was smaller in scale, and I will be honest about that. The posting also asks for written Japanese with clients: my reading and writing are still behind, and I take classes in Tokyo to close that gap. I understand most spoken Japanese and hold everyday conversations. French is my native language and English my working language.

I am available now. My portfolio is at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
