2K hiring team, Tokyo

October 2026

Application: Associate Manager, Content Localization (Tokyo)

Dear 2K hiring team,

My name is Sabri Mohamadi. I am a Producer and Game Designer based in Tokyo, and from 2023 to 2025 I was **Global Associate Producer on the Little Nightmares franchise** at Bandai Namco Entertainment Europe. I am writing to apply for the Associate Manager, Content Localization position at 2K in Tokyo.

Localization is the part of production I learned to value most. Working with localization teams on Little Nightmares, I saw how much of their work depends on things outside their hands: text that arrives on time, strings with enough context, and a schedule that leaves room for review. Making those things easier for a localization team is the work I would like to do at 2K.

On Little Nightmares, I kept localization, QA, analytics, marketing and communications aligned with development on Little Nightmares III, the VR game and the mobile port, and reviewed milestone deliveries from external studios. I also rebuilt our project tracking in **Jira, Confluence** and SharePoint and automated a weekly report that used to take a full day.

French is my native language and English my working language, so I can help check French quality and work with linguists and vendors in both. I also understand most spoken Japanese, which helps day to day in Tokyo, while my reading and writing are still in progress.

I enjoy supporting people: I teach Producing, Game Design and Level Design at Ynov Campus as a Visiting Lecturer, and I coached the project leads of six game projects at a games incubator. I have never worked as a linguist and CAT tools would be new to me, so I would come ready to learn from your team.

I live in Tokyo and can start right away. My CV is at **sabri-mohamadi.fr**. Thank you for your time and consideration.

Kind regards,

Sabri Mohamadi
