Application: Part-time Lecturer, University Foundation Courses

I am applying for the part-time Lecturer position for your university foundation courses, in particular **Fundamentals of Programming, Fundamentals of Design** and Digital Literacy. I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan and can start right away.

I teach Producing, Game Design, Level Design and programming fundamentals at Ynov Campus in France as a Visiting Lecturer, from first-year Bachelor's to Master's students, remotely from Tokyo. I hold a Master's-level degree (RNCP level 7) in Game Programming and Design, and I trained as a programmer (C#, C++, .NET, Unity). I also created a programming basics course on Udemy and the Hika Learn YouTube channel.

Before teaching, I worked in the games industry as Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, and as a consultant who trained client teams on Microsoft 365 tools. I like to teach through small projects that students can finish and show.

I am available on weekdays, Monday to Friday, and I would be glad to discuss which courses fit your schedule. My CV and portfolio are at **sabri-mohamadi.fr**.

Kind regards,

Sabri Mohamadi
