Lionbridge Games, Yokohama studio

October 2026

Application: Game Localization Tester (French native), Yokohama

I am applying for the Game Localization Tester position for French at your Yokohama studio. I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan and can start right away.

French is my native language and English my working language. As Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, I worked every day with QA and localization on Little Nightmares III, Little Nightmares VR: Altered Echoes and the mobile port, which shipped on consoles, PC, VR and mobile. I know how bug reports get triaged, and what makes one clear and useful for developers.

I trained as a programmer, I am comfortable with Jira and testing builds, and I play a lot, from rhythm games such as osu! and Muse Dash to Monster Hunter: World. I can take full-day shifts in Yokohama.

My CV is at **sabri-mohamadi.fr**. I can start right away.

Kind regards,

Sabri Mohamadi
