Collectors, PSA APAC hiring team, Tokyo

October 2026

Application: Project Manager, PSA APAC

Getting dozens of moving parts in different countries to land on the same day was my job at Bandai Namco, across studios and vendors in Europe. Now based in Tokyo, I would like to do the same for PSA's projects, partners and events across APAC, as your Project Manager.

For two years at Bandai Namco Entertainment Europe, as Global Associate Producer on Little Nightmares, I ran **three projects in parallel with four external studios**, plus playtest and service vendors. I tracked milestones and deliveries, kept QA, localization, marketing and communications aligned, and reported progress to stakeholders and the IP holder. I rebuilt project tracking in Jira, Confluence and SharePoint and **automated a weekly report that used to take a full day**.

Earlier, I ran one schedule for six game projects and around forty people at the Nightmare Games incubator, and as a consultant I automated business processes and trained client teams. Today I also work freelance with indie teams and teach Producing at Ynov Campus as a Visiting Lecturer.

I live in Tokyo and can start right away. English is my working language, French my native language, and I understand most spoken Japanese. My CV is at **sabri-mohamadi.fr**. I would be glad to talk about how I can support PSA's growth in the region.

Kind regards,

Sabri Mohamadi
