Digital Hearts Global Business, TOKYO Lab

October 2026

Application: French Game Tester (LQA / FQA), Tokyo

Testing a game well comes down to details: a truncated French line, a crash on one platform, a missing step in a bug report. As Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, I saw those details every day in QA and localization reports, across three games and twelve platforms. I would now like to work on them directly, as a French tester at your TOKYO Lab.

French is my native language and English my working language, and I understand most spoken Japanese. I trained as a programmer, I am comfortable with Jira, Confluence and Microsoft Office, and I play a lot, from rhythm games such as osu! and Muse Dash to Monster Hunter: World.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. I can work several days a week, start right away, and would be glad to grow into a longer contract with your team. My CV is at **sabri-mohamadi.fr**.

Kind regards,

Sabri Mohamadi
