Keywords Studios LQA team, Tokyo — October 2026

Application: French Game Localization Tester (Tokyo)

For two years I sat on the other side of the bug database. As Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, I read QA and localization reports every day to track what had to be fixed before each milestone. I know how much a clear report saves the developers, and I would now like to write them, as a French tester in your Tokyo team.

French is my native language and English my working language, and I understand most spoken Japanese. I trained as a programmer, I am comfortable with Jira, Confluence and Microsoft Office, and I play a lot, from rhythm games such as osu! and Muse Dash to Monster Hunter: World.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. I am available Monday to Friday and can start right away. My CV is at **sabri-mohamadi.fr**.

Kind regards,

Sabri Mohamadi
