LangLink Games hiring team, Tokyo

October 2026

Application: Gaming Localization Specialist (In-game LQA), English to French

A French line that reads well in a spreadsheet can still break on screen: too long for its button, wrong for its context, or out of tone with the character. I saw this every day as Global Associate Producer on Little Nightmares at Bandai Namco Entertainment Europe, working with localization and QA teams, and I would like to do this work directly as your English to French in-game LQA specialist.

French is my native language and English my working language, and I understand most spoken Japanese. I am used to **Jira**, bug reporting and reviewing pre-release builds with external studios. I trained as a programmer and I play a lot, from rhythm games such as osu! and Muse Dash to Monster Hunter: World.

I live in Tokyo on a working holiday visa, so I am already authorised to work in Japan. I can work on-site in Hatchobori during Japan hours and start right away. My CV is at **sabri-mohamadi.fr**.

Kind regards,

Sabri Mohamadi
